15<sup>th</sup> May 1985.

Dear Roberto,

Many thanks for your recent enquiry. I am enclosing a leaflet giving details of our long African expeditions. These trips are all taken by experienced leaders and are all accompanied by a qualified mechanic.

We will be taking a full five months for these expeditions and the trips will be run to a flexible timetable, including many side expeditions to places of interest en route. Above all I believe that it is essential to be able to allow sufficient time to really get to see and to explore the countries that we travel through, as for the average person who joins these long expeditions it is possibly a once in a lifetime journey. This is one of the more comprehensive expeditions and also includes visits to three West African countries.

The vehicles that we use are four wheel drive Bedfords, and these have been specially fitted out for travelling across Africa. The front and sides can be rolled up and the roof back to make them open and airy.

I have been organising these expeditions across Africa since 1971 and in addition to leading 11 of these long expeditions I have also organised and led several short trips in Africa, Nairobi to Johannesburg, a four month expedition around South America, one across Asia to Kathmandu, and a long trip round the Australian outback. Long Haul Expeditions was established in 1971 and has been organising and running overland expeditions in Africa continuously for the last 14 years.

I do hope that you are interested in joining us on one of the forthcoming expeditions. If you would like to call to meet me to discuss the trips in more detail you will be welcome at any time, including evenings and weekends, however it would be appreciated if you could telephone first to arrange a time. We are situated not far from Cockfosters underground station on the Piccadilly line.

I look forward to hearing from you.

Yours sincerely,

  
Terry Wilkinson
